

EXECUTIVE SUMMARY

=====

"overview": "Quantum Token (QTM) represents a revolutionary approach to decentralized finance, combining quantum physics principles with cutting-edge blockchain technology. As the first quantum-powered meme coin, QTM introduces unprecedented staking mechanisms, cross-chain integration with our upcoming PARADOX token, and community-driven governance.",

"keyPoints"

"Total Supply: 42,424,242,424 QTM tokens",

"Multi-phase presale with up to 20% bonuses",

"Revolutionary staking with up to 24% APY",

"Quantum entanglement with PARADOX ecosystem",

"Science-backed tokenomics and development"

"vision": "To bridge the gap between theoretical quantum physics and practical DeFi applications, creating a sustainable ecosystem that rewards scientific curiosity and community participation."

SCHRÖDINGER'S CAT

SCHRÖDINGER'S CAT

"quantumMechanics": "Our smart contract incorporates quantum mechanics principles through randomized reward multipliers, uncertainty-based bonus distributions, and entanglement mechanics that create interconnected token relationships across multiple blockchains.",

"technicalFeatures"

"Quantum uncertainty reward calculations",

"Cross-chain entanglement protocols",

"Advanced staking mechanisms with time-lock features",

"Community point system for ecosystem participation",

"Team vesting with quantum cliff mechanics"

"innovation": "By implementing quantum-inspired algorithms in our smart contracts, we create unpredictable yet mathematically sound reward structures that mirror real quantum phenomena."

SCHRÖDINGER'S CAT

TOKENOMICS

=====

"distribution":

- "Presale (27%)": "11,515,151,515 QTM - Multi-phase presale with increasing prices",
- "Liquidity (25%)": "10,606,060,606 QTM - DEX liquidity provision",
- "Team (15%)": "6,363,636,364 QTM - 2-year vesting with 6-month cliff",
- "Community (10%)": "4,242,424,242 QTM - Staking rewards and community incentives",
- "Development (10%)": "4,242,424,242 QTM - Continued platform development",
- "Marketing (5%)": "2,121,212,121 QTM - Marketing and partnerships",
- "Reserve (3%)": "1,212,121,212 QTM - Emergency fund and future development"
- "CCReserve (5%)": "2,121,212,121 QTM - Cross Chain and Bridge Liquidity fuel"

"mechanisms":

- "Deflationary burning mechanism",
- "Staking rewards from community allocation",
- "Cross-chain bridge fees revenue sharing",
- "Quantum uncertainty bonus distributions"

SCHRÖDINGER'S CAT

PRESALE STRUCTURE

=====

"name": "Quantum Pioneers",
"allocation": "1,919,191,919 QTM",
"price": "0.000001 ETH",
"bonus": "20%",
"requirements": "Whitelist only",
"minMax": "0.005-5 ETH"

"name": "Probability Wave",
"allocation": "3,838,383,838 QTM",
"price": "0.0000015 ETH",
"bonus": "10%",
"requirements": "Whitelist only",
"minMax": "0.015-3 ETH"

"name": "Observer Effect",
"allocation": "5,757,575,758 QTM",
"price": "0.000002 ETH",
"bonus": "5%",
"requirements": "Public sale",
"minMax": "0.01-3 ETH"

"benefits":

"Early supporter bonuses up to 20%",
"Quantum uncertainty bonus multipliers",
"Priority access to PARADOX presale",
"Community points for governance participation"

SCHRÖDINGER'S CAT

STAKING MECHANISM

=====

"overview": "Our quantum-inspired staking system offers multiple lock periods with increasing rewards, incorporating uncertainty principles that can boost returns by up to 10% through quantum randomness.",

"tiers":

"duration": "30 days",

"apy": "12%",

"multiplier": "1.0x"

"duration": "90 days",

"apy": "15%",

"multiplier": "1.25x"

"duration": "180 days",

"apy": "18%",

"multiplier": "1.5x"

"duration": "365 days",

"apy": "24%",

"multiplier": "2.0x"

"features":

"Quantum uncertainty bonus (up to 10% extra)",

"Early supporter additional 20% bonus",

"Flexible unstaking after lock period",

"Community points accumulation",

"Cross-chain staking compatibility"

PARADOX INTEGRATION

=====

SCHRÖDINGER'S CAT

"concept": "Quantum entanglement between QTM and our upcoming PARADOX token creates a unique cross-chain ecosystem where holders can multiply their rewards through strategic token locking.",

"mechanics":

"Lock QTM tokens to mint equivalent PARADOX",

"150% reward multiplier for entangled tokens",

"Cross-chain yield farming opportunities",

"Shared governance between ecosystems",

"Quantum bridge technology for seamless transfers"

"benefits": "Entangled token holders receive enhanced rewards from both ecosystems, creating a symbiotic relationship that increases utility and value for both tokens."

SCHRÖDINGER'S CAT

ROADMAP

=====

"quarter": "Q3 2026",

"milestones":

"Smart contract deployment and audit",
"Presale launch and community building",
"DEX listing and liquidity provision",
"Staking platform launch"

"quarter": "Q4 2026",

"milestones":

"PARADOX token development",
"Cross-chain bridge implementation",
"Quantum entanglement feature launch",
"Partnership announcements"

"quarter": "Q1 2027",

"milestones":

"PARADOX token launch",
"Cross-chain yield farming",
"Mobile app development",
"Advanced DeFi features"

"quarter": "Q2 2027",

"milestones":

"Quantum governance implementation",
"Scientific research partnerships",
"Educational platform launch",
"Global expansion initiatives"

SCHRÖDINGER'S CAT

TEAM & LEGAL

=====

"team": "Our team consists of vary small group of people(for now), two friends Mystery Technical Engineer - TechCEO and co-founder(will be revealed after launch of PDX Token) who is blockchain developer, quantum physics researcher, DeFi expert and so much more, with him Andrej@Admin co-founder and CEO committed to build a sustainable and innovative ecosystem.",

"advisors": "Scientific advisor and co-founder provide guidance on quantum mechanics implementation and ensure our technology remains cutting-edge.",

"legal":

"Comprehensive legal review of all smart contracts",

"Compliance with applicable regulations",

"Regular security audits and updates",

"Transparent development and governance processes"

"disclaimer": "QTM tokens are utility tokens designed for ecosystem participation. This document does not constitute investment advice. Please conduct your own research and consult with financial advisors before making investment decisions."
